

Out of hours works

WSI Cargo Precinct earthworks

May – July 2025

Dear Neighbour,

Western Sydney International (Nancy-Bird Walton) Airport (WSI) has engaged CPB ACCIONA Joint Venture to develop its Cargo Precinct.

Following our notification to you in March 2025, for earthworks in the area behind the new cargo shed and parallel to The Northern Road, we wish to advise this work has been extended until the end of July 2025.

When will work commence and during what times?

Works are already underway and will now continue until the end of July 2025.

- Monday to Friday: 24 hours
- Saturday and Sunday: 6am-6pm

What activity will you see?

The earthworks will use heavy machinery to move earth, as well as compact it in preparation for landscaping works in the area. Landscaping will also be carried out to make permanent drainage more effective.

Our contractor will also be required to carry out noise monitoring during works outside of our standard construction hours and water carts will be on hand during these works for dust suppression.

Thank you in advance for your patience while this work is completed.
