WSI Cargo Precinct Drainage Works

June – August 2025

Dear Neighbour,

Western Sydney International (Nancy-Bird Walton) Airport (WSI) has engaged CPB ACCIONA Joint Venture to develop its Cargo Precinct and will begin drainage works and general earthworks.

When will work commence and during what times?

Works will commence in June 2025 and continue until end of August 2025. They will only be used as a contingency in the event of unforeseen delays.

Monday to Sunday: 24/7

What activity will you see?

The earthworks will use heavy machinery to move earth for the drainage works as well as compact the earth. Water carts will also be on hand during these works for dust suppression.

Our contractor will also be required to carry out noise monitoring during works outside of our standard construction hours. For a map of the work area, please see overleaf.

Thank you in advance for your patience while this work is completed.
